Task Acceptance Criteria:

Layout is responsive and looks good on all screen sizes down to 320px wide.
Top menu changes style and gets fixed on the screen when user scrolls down.
Menu items get active as soon as user sees them on the screen while scrolling.
When user clicks on top menu items, the page scrolls smoothly to the scroll destination.
Contact form changes layout after being filled. Confirmation message appears with unobtrusive animation.
User items have nice hover animation effect.
Click on a user item leads to layout change of the section to details of an item.
When user navigates through user items, they are switched with a nice effect.

As for details which are not described above, feel free to use your best judgement and your sense of beauty.

Following technologies and approaches are recommended for this test task:
Flex, Bootstrap, jQuery, SCSS.
You may use any other libraries of your choice as well.

Evaluation Criteria:

Criterion	Points	Description
Markup quality	25	Reusable css, corresponding selectors and classes/ids usage
Site responsiveness	25	Mobile/tablet/desktop on different resolutions
Quality	25	Correspondence to requirements cross-browser
UI appeal	15	Neat and accurate UI
Animations	10	Type, number, complexity and relevance
